Summary — Angular Developer with 3 years of experience in building responsive web applications. Proficient in Angular, TypeScript, JavaScript, HTML, and CSS with strong skills in front-end development, UI/UX optimization, and RESTful API integration. Experienced in Agile methodologies, consistently delivering high-quality code in fast-paced environments.

Skills

Languages HTML5, CSS3, JavaScript, TypeScript
Frameworks Angular

Tools Adobe Experience Manager, Postman, JIRA
Testing Jasmine, Karma

Experience

Q3 Technologies

Software Engineer

Dec 2024 – Present

Jaipur, Rajasthan, India

- Designed Angular reactive forms and used RxJS operators for mocking and API integration, enhancing application responsiveness and improving load times by 25 percent.

Infosys Ltd

Senior Systems Engineer

Feb 2021 – April 2024

Chandigarh, India

- Designed comprehensive UI enhancements using Motif library and AG grid and translated business requirements into efficient code solutions using Angular 16.
- Upgraded Angular application from Angular 16 to Angular 17, ensuring full compatibility and maintaining stability across deployments.
- Led Agile Methodology Implementation, boosting team collaboration by 30 percent and optimizing workflows.
- Converted 100+ business requirements into optimized coding solutions, resulting in a 95 percent project success rate.
- Developed 20+ screens for insurance clients using Angular 17, enhancing user engagement by 40 percent.
- Achieved a 70 percent success rate in test case execution using Jasmine and Karma for unit testing, enhancing application reliability and quality control.
- Led Development of complex forms and a summary page for a critical project module, achieving a 98 percent completion success rate.
- Translated and localized application to support multiple languages, enhancing accessibility and user experience for a global audience, resulting in a 15 percent increase in user engagement.
- Received Client Appreciation Mail for delivering high-quality work and exceeding project expectations, demonstrating strong client relationship management and commitment to excellence, contributing to a 10 percent increase in client retention.
- Resolved bugs and initiated CI/CD pipelines to optimize development processes, reducing deployment time by 30 percent.
- Produced over 50 articles tailored to client requirements and conducted content creation tasks using Adobe Experience Manager, increasing content delivery efficiency by 40 percent.
- Utilized Site-Improve for AEM content authoring, improving content accuracy and accessibility compliance by 20 percent.

Education

Chitkara University

Bachelor of Engineering

Specialization: Computer Science Engineering

Baddi, Himachal Pradesh

CGPA - 8.34

Certifications

- Global Agile Certified - Infosys Global Agile Certified
- AWS - Fundamentals of AWS by CourseEra

Projects

Treasure Admin

- Frameworks used: Angular, Angular Material
- Developed a responsive and user-friendly admin dashboard using Angular and Angular Material components to ensure a seamless user experience.
- Integrated Angular Material's design principles for a consistent and visually appealing interface across the application.
- Created data tables, forms, and modals using Angular Material to handle user inputs and display data effectively.
- Implemented reusable UI components and services to enhance application modularity and maintainability.
- Utilized RxJS for handling asynchronous operations and efficient data flow within the application.
